Friday

Finished the trail today.

Called on fire at 6:30. Not a wildfire with Art Org. It was raining. Parked in the truck while the rangers tracked down the fire. We broke out the packs and chopped the fruit c:ans open with axes and etc.

Art Org built a fire on the road to warm us up. We thought we'd get 36 days, but when Charlie came up he told us to put more wood on.

Yes, it was cold. We had to wait till the rangers came back before we could do anything. So we spread out around the fire and crossed mad coffee. Boy was it powerful. It would take the enamel off the bath tub. We lay there till about 4:30 A.M. 720 one slept much.

no relief crew wasin sight yet. They finally came about 3:30 P.M. We went down the trail and at the bottom had some coffee and sandwiches.
By the time we reached camp we had been out 24 hrs. without sleep. We had a chicken dinner in camp and after washing up, went to the take well camp rate program. The paper had given out hot to bed around
